Morinville Legion hosts a movie night

In the evening on Saturday, August 27, Lisa Adams and her team of helpful volunteers hosted a family fun movie night for the community members in Morinville to enjoy. Due to the weather being too windy and cold, the movie night was showcased in the upper hall of the legion building at 10120 101 Avenue in Morinville.

Adams said, "The response from the community was awesome! We had over 40 guests show up for our first-time hosting, and many were under five!"

Chairs were quickly set up for guests, and children set up their blankets and pillows right front and centre to comfily enjoy the movies. As the event moved to the legion, guests were offered

Parents, Children and teens attended a double movie night hosted by the Morinville Legion at 10120 101 Avenue. Guests enjoyed many laughs while they watched *Minions Rise of Gru*; children giggled as the minions were their usual silly selves. All guests loved the dinosaur-filled, action-packed movie *Jurassic World Dominion*. **Photo By Lisa Adams**

Benefits of your neighbourhood green space

(NC) Warmer weather, longer days and new growth are just a few of the reasons why people love spring. It's the time of year when Canadians start to spend more time outdoors, often enjoying the green spaces in our local neighbourhoods. Public parks and private yards add to the beauty of urban landscapes, encourage biodiversity and contribute to healthy communities.

"There are many surprising benefits to green spaces in urban areas," explains Karen Stephenson, director of regulatory affairs and stakeholder relations

at Scotts Canada Ltd, a Canadian leader in the lawn and garden care industry. "Healthy green spaces are not only a place to gather with family and friends, but they have also been shown to provide numerous social, health and environmental benefits."

Well-cared-for green spaces in urban centres reduce vandalism, increase property value and boost physical and mental health. Urban green spaces also contribute positively to the environment by filtering rainwater and capturing pollutants in the air. However, they

require care to thrive, including protection from pests like insects, weeds and diseases.

Pesticides help protect lawns, sport fields and gardens by keeping weeds and other pests under control. Pest control products can also diminish allergy-causing pollens and control harmful weeds that may pose a threat to children and pets.

Whether used for agriculture or urban lawns and gardens, pesticides are rigorously tested to meet high standards of health and environmental safety set by Health Canada.

"Canada has some

of the best regulation and legislation related to the evaluation of pesticides," says

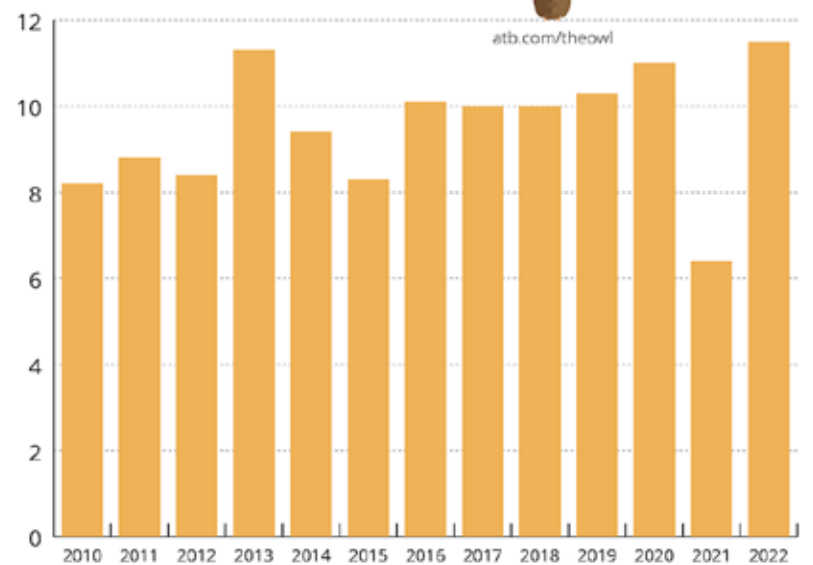

Stephenson. "Many regulatory agencies around the world look closely at pesticides to

ensure they are safe for use. There's a lot of science to support the safety of these products."

Harvest season

Harvesting is collecting and gathering the valuable and edible parts of plants after the plants have met maturity. Farmers work hard to grow and harvest crops each year for all our communities to enjoy in all our favourite grocery stores.

By Myrina Carter

We are back with another harvest season; farmers are busy with their fully plished crops. What is harvesting? It is the way of collecting ripe produce from the fields. It is carried out as soon as the plant has reached average maturity—the beneficial requirement of seed, rhizomes, bulbs, stems, leaves, or stalk. Many farmers use traditional and modern techniques for growing crops. There are a variety of crops grown each year in Alberta, and many create products that are supplied to our local food stores.

When it is decided to harvest crops, that all depends on the position

of grains in the plants, there are many ways to harvest, including cutting, digging, picking, laying, gathering, curing, and stacking. Farmers must pay attention to the timing they harvest. If crops are left too late, that could lead to a predisposition to pests.

Hand or manual harvesting is a way to gather fruits or vegetables. Some will harvest with tools such as sickle, gandasa and small axes. Using machinery is a more modern-day method for harvesting crops, machines like combines included with other large machines that cut and clean plants simultaneously.

The harvesting process includes reaping

when mature plants grown above ground are cut down. Threshing is the process of separating food grains from the rest of the cut crop. An essential part of harvesting is cleaning which involves removing dust and immature and non-grain particles from the edible food grains. Food grains are then hauled out and bagged for transport and storehouse purposes. An essential step in harvesting is storing and protecting the grains from rodents and other pests. Farmers must harvest crops using advanced technology, reducing the wastage of grains and increasing quality and quantity, leading to a higher profit.

By ATB Financial Team

After a rough 2021, higher-than-average precipitation and more moderate temperatures in 2022 will help Alberta's wheat production reach the highest level on record.

Preliminary estimates released yesterday by Statistics Canada suggest that wheat production in Alberta will come in around 11.5 million metric tonnes in 2022

and break the previous record of 11.3 million tonnes set in 2013.

The improvement comes after wheat production in Alberta fell to just 6.4 million tonnes in 2021.

Similarly, canola production is expected to rise from 4.3 million tonnes in 2021 to 6.5 million in 2022—the second highest level of all time.

Although not a record-setting amount,

barley production in Alberta is also poised to have a good year, rising from 3.6 million tonnes last year to almost 5.0 million this year.

When combined with strong prices, these estimates are an encouraging sign for the sector and the broader Alberta economy. With that said, higher operating costs are also a factor and will cut into the net revenue of Alberta farmers in 2022.

RCMP updates in the region

By Irene van der Kloet

On August 27, RCMP had a heavy police presence in the area of Lily Lake Resort, west of Redwater. On that day at 2:30 am, Morinville RCMP received a 911 call of a firearms complaint with an individual who had been shot in Sturgeon County. Lily Lake Resort residents were asked to shelter as police investigated. Later, the shelter-in-place was lifted. Police are looking for two persons of interest, and both are described as males in their mid 20's, one with blonde hair and the other wearing a ski mask. The 30-year-old victim of the shooting was taken to Edmonton by air ambulance with serious life-threatening injuries, but this victim's condition is currently unknown.

More information has become available about the shooting incident in Smoky Lake on August 8: A domestic violence complaint was received, and a vehicle was identified regarding this complaint. When RCMP

officers tried to stop this vehicle, the driver fled. Officers pursued and eventually successfully used a tire deflation device. The driver continued at a slower speed, and during this stage of pursuit, an occupant of the vehicle discharged a firearm in the direction of the pursuing officers. The driver went into the Centex gas station in Smoky Lake. The occupants, one man and one woman, exited the vehicle. The male was carrying the firearm, and together they stole a truck parked at the gas station. Officers arrived at the gas station, and one officer discharged their firearm at the fleeing vehicle at 7:58 am. Officers continued to pursue the vehicle in dense trees near Range Road 172. RCMP emergency response team and police dog service officers began to track the occupants from this location. At 10:11 am, officers observed the male

occupant in a field. An interaction occurred between the officers and the male occupant, and officers discharged their firearms. Officers approached and later located both occupants, who were wounded. A firearm was located near the man. Emergency medical services provided care at the scene. The male was sent to an Edmonton-area hospital by air ambulance. The female was declared deceased by EMS. Alberta Serious Incident Response Team (ASIRT) will examine the circumstances surrounding the use of force. ASIRT is continuing efforts to identify people who may have witnessed aspects of the confrontation between the man and police and is asking anyone who may have been in the area and may have witnessed these events and/or may have a video to contact investigators at 780-644-1483. On August 20, a 21-year-old man, a resident of Enoch Cree Nation, was charged with: flight from police, dangerous

driving, possession of a weapon contrary to order (x3), unauthorized possession of a firearm, robbery with a firearm, theft over \$5,000, pointing a firearm (x2). Following a judicial hearing, the 21-year-old male was remanded into custody to speak to bail and is scheduled to attend St. Paul Provincial Court on Sep 1, 2022.

On Aug 28, just after 5:30 am, the Morinville Home Hardware was broken into. Two Caucasian males wearing dark clothing broke into the store and stole tools. The males fled the area in a white GMC truck. Morinville RCMP requests assistance from the public in identifying the suspects and/or vehicles. Please contact the Morinville RCMP at 780-939-1600 if you have any information. If you wish to remain anonymous, you can contact Crime Stoppers at 1-800-222-8477 (TIPS), online at www.P3Tips.com or by using the P3 Tips" app available through the Apple app store or Google Play Store.

to purchase all sorts of goodies, like their favourite chocolate bars, chips, popcorn, pop, water and even hotdogs, and a full bar for all the

adults bringing their children. One lucky attendee was excited as they walked away with \$302. from the fifty-fifty draw offered on-site. The first movie played was Minions Rise of Gru,

with children giggling, laughing, and having a blast with their friends and family. Jurassic World Dominion had everyone on the edges of their seats as dinosaurs flew and stomped

across the screen and were filled with a ton of action. One dad said, "It's nice to take the little one to a movie and not have to be silent the whole time such a great experience."

Adams, Service Officer, said, "Unfortunately, the only night in August we had terrible weather was for our event, but it was amazing to see families out and enjoying the movies

with their little ones! It was great to see young families, adults without children, and teens come and enjoy a night with us. Movie nights will be planned more often in the future!"
